INFORMATION

TMG International is your specialized partner for the execution of project management. We provide our services all over the world and have offices in The Netherlands and Turkey

What we do

Independent Project Management

We believe that all projects must be managed by skilled, knowledgeable and experienced professionals to meet the organization's deadlines and to stay within budget requirements. Our core responsibilities are initiating, planning, executing, monitoring, controlling, and closing projects.

Experience is key

We make extraordinary efforts to attract, engage and retain the best professionals in our fields of expertise. We put the highest ethical standards at the centre of all we do. Professionalism is inherent in our offering. We care about individuals and their progress and offer the most fulfilling career development for our experienced professionals.

The average experience level of our professionals is 15+ years.

What we stand for

Safety

“0” LTI’s is our constant focus

Employees are the foundation of all projects, factories and sites. It is extremely important that the foundation stays healthy, both for the employees and for the organization.

We offer our clients organized lead efforts and procedures to identify and prevent potential hazards at the workplace with the aim of reducing accidents and exposure to harmful situations and substances.

A large industrial distillation column with multiple levels of platforms, ladders, and complex piping. The structure is metallic and stands against a clear sky. In the background, there are large cylindrical storage tanks.

*Based on our slogan
“your partner in projects”, and
with great developed precision
through years of experience and
expertise in the field, we deliver
the highest quality of services to
our customers.*
